PROJECTS

DIY-Repair-Hub

🌐 GitHub

Tailwind CSS, ReactJs

- Developed a React.js platform for DIY enthusiasts featuring a comprehensive guide management system with search/filtering capabilities, dynamic user profiles displaying real-time statistics, and an AI-powered chat assistant. Built responsive UI with Tailwind CSS and smooth animations using Framer Motion, implemented state management with Context API, and created SPA navigation with React Router for guide details and user authentication flows.

Expense-Tracker

🌐 GitHub

Tailwind CSS, ReactJs

- Built a sleek, responsive Expense Tracker using React and Redux Toolkit. It tracks income/expenses, shows real-time balance, and visualizes spending by category with Recharts. Features include add/delete transactions, category filters, and localStorage persistence – all wrapped in a modern glassmorphism UI with TailwindCSS.
